### Release of book titled Quality Management in Construction Projects

Release of book

Dr. Abdul Razak Rumane, Consultant Engineer, SSH International, who delivered the 23rd Dr A N Khosla Memorial Lecture during the 25th Indian Engineering Congress held at Kochi on December, 2010, released his first ever book titled 'Quality Management in Construction Projects', published by Taylor & Francis Group, CRS press, Florida, USA, under the patronage of H.E. Ambassador of India to State of Kuwait, Mr Ajai Kumar in a book release function held at Gulf University for Science and Technology (GUST) Mishref. A large number of prominent dignitaries and audience from different sectors of industry were present on this occasion. Prof Adedoji B Badiru, Book series editor, CRC Press, USA commended the professionalism of the author Dr. Rumane. Further Dr Rumane briefed that the book contains all aspects of construction projects starting from the landscaping to handing over. The book also covers the essential measure for quality in construction and how to analyze the quality in different phases of construction.
