

his own contribution to make the world move forward. He further thanked Gulf University of Science and Technology (GUST) for hosting the event. I, myself, teach at an Institute of Technology and appreciate the importance of GUST being involved in an event such as this. He further expressed that like a gust of wind over the Arabian desert, I expect Dr. Rumane's book to have a sweeping positive impact on construction projects all over the world. Well known social worker and Volunteer Engr Naeemah Al Hay introduced the author to the large audience. Rumane, an electrical engineer with 37 years of professional career is employed with SSH International as consultant Engineer, presents key information on how to approach quality assurance for construction projects through his first ever book titled "Quality Management in Construction Projects". "It's my experience in my professional career which I wanted to share with everyone through this book" said Mr. Rumane. "This book contains all aspects of construction projects starting from the landscaping to handing over. Book also covers what is the measure for quality in construction, how to analyze the quality in different phases of construction", Mr. Rumane briefed. The book consists of 7 parts and contain 147 figures and 49 tables, he added. Engr Ahmad Almershed, Undersecretary Ministry of State National Assembly and Deputy Chairman of Voluntary Work Center in his felicitation speech commended the Indo Kuwait friendship. Dr Hasan Al Sanad, Former president of Kuwait Society of Engineers and Professor of Kuwait University in his felicitation speech acknowledges the contribution of Indian engineers for the development of Kuwait. He said that the author Mr. Rumane put together all the aspects of construction, which we need in Kuwait in this book.

The book is concise and easy to read, presents key information on how to approach quality assurance for construction projects. Containing quick reference tables and a wealth of figures, the book presents valuable quality related data and guidelines, with coverage that spans from the inception of a project through to issuance of a completion certificate. In addition to covering standard procedures and concepts, the author introduces and discusses a wide range of the-state-of-the-art-tools and approaches. Professionals can use to develop Integrated Quality Management System most suitable for their specific project. These include Six Sigma, TRIZ, and Total Quality Management, as well ISO 9000, ISO 14000 Environmental Management System, and OHSAS 18000. The book provides sufficient information that will also prove valuable for cutting-edge instructors who wish to provide engineering/management student with an in-depth knowledge about current practices and familiarize them with the vernacular used in discussing quality assurance practices within the construction industry, the author explained.

Dr. Rumane is a celebrated engineer having received various awards and medals. His biography has been listed in Marquis Who's Who in Science and Engineering, The Barons 500-Leaders for the New Century, 500 Founders of 21st Century, 500 Leaders of Influence, Asian Admirable Achievers, amongst other listings. Dr. Rumane is also selected as one of the Top 100 Engineers-2009 of International Biographical Centre (IBC), Cambridge, UK. He also serves as a senior Member IEEE (USA) and former Chairman, IEI, Kuwait Chapter. He has Ph.D. with dissertation "Quality Engineering Applications in Construction Projects" from Kennedy Western University, USA and was awarded Honorary Doctorate by The Yorker International University in Italy. Special guest were felicitated with Indian tradition by presenting a shawl. Memento was presented to Dar Badiru as a token of appreciation. Similarly a memento was presented to GUST for their support to organize the event at their auditorium Members of FRONTLINERS, a service organization registered with Embassy of India, felicitated Dr. Rumane, their president, by presenting a memento and shawl for his achievements. Engr Joseph Panlcker proposed vote of thanks. Dinner was served.

"The traditional ways of teaching science theoretically not only harms the child, but it demoralize the student too" said Dr Vidula...
