## Dr Rumane makes presentation at Texas

Dr Abdul RazzakRumane, an accomplished engineer presently working in Kuwata, presented technical seminar at 2011 International Lean & Six Sigma Conference hold at San Antonio, Texas, USA. The topic of seminar was "Application of Six Simga DMADV Tool in Construction Projects."

The seminar was categorised under "Design and Innovation for Lean Six Sigma." The presentation focussed on application of Six Sigma methodology concept of team work, team roles and how analytic

tool DMADV (Define, Measure, Analyse, Design, and Verity) can be used to develop contractor's construction schedule in construction projects. He stated that six sigma pactices are not applied in construction projects and also the literature on quality in construction projects is very limited.

very limited.

He said that application of DMADV methodology will help contractor to prepare construction schedule with accuracy without deviations from the contract documents.
