**Engineer Rumane honoured:** American Publishers of Fortune 500 and Forbes 400 published the biography of Engineer Abdul Razzak Rumane in their special commemorative edition of "The Barons 500, Leaders of the New Century". The book includes the names of individuals covering a wide spectrum of endeavours.

Among them are Dr Dawood Musad Al Saleh, Governor of Kuwait, Dr Imad Al Atiqi, Dr Hasan Al Awi, Kuwait University, Dr Ahmed Al Motawi, Hadi Clinic, Kuwait, Sir Arthur C. Clarke, George W. Bush, Governor of Texas and Republican presidential candidate, Bill Gates of Microsoft Corporation, Neil L. Rudenstein, President of Harvard University and many other global personalities.

Engineer Rumane who is working as the senior consultant in Kuwait was invited to attend 27th International Millennium Con-

Happy birthday to Kayal (Aug 20). May you have more birthdays to come. May the Almighty God bless you always.

Greetings from your loving dad Anbuvasanti, Santi, Ravi, David, Joseph and all your friends and relatives.

gress on Arts and Communication which was held in Washington DC. From 2000 Engineer Rumane, Indian national was the delegate from Kuwait who in his statement at the conference expressed: "I am attending the Congress to share the views and expertise with multi-cultural elite group of people and achieve long lasting understanding and acquaintances to build friendly international society."

It was well organised by publishers of biographical titles American Biographical Institute (ABI) and International Biographical Centre (IBC). The congress is held every year at different parts of the world to bring together intellectuals, artists, writers, educators, researchers, scientists and many other professionals for Global fellowship and sharing of cultures. The purpose of 27th congress being held in Washington DC was its importance as a capital of one the world's greatest democracies and it was first congress of the New Millennium.

This year's congress was attended by 160 delegates from 44 countries which consists of people from various fields as ministry advisors, ambassadors, ministers, doctors, professors, parliamentarians, engineers, artists, educationists, etc. Various programmes including seminars on topics such as arts and literature, education and culture, science and medicine, communication, international issues and current affairs were held during this congress. Speakers from different disciplines participated in these seminars and presented their papers.
