

ndiansinKuwait.com - Indian professional from Kuwait Dr. Rumane Participated in People to People ... Page 2 of 4

The delegation also visited solar power plant, participated in Delhi International Renewable Energy Conference (DIREC)-2010, and other cultural activities.

People to People International is a non political, private sector organization dedicated to promoting international peace and understanding. It was founded in 1956 by President of USA Dwight D. Eisenhower, as a vehicle to

expand international relations beyond the structure of government agencies. President of USA is an honorary Chairman of this organization. As a Citizen Ambassador, each delegate represents his/her profession while continuing the tradition of high-level professionals who have shaped, over the past 50 years, international dialogue within their profession. Dr. Rumane is an accomplished engineer having received various awards and medals. He has Ph.D. with disseratation "Quality Engineering Applications in Construction Projects" from Kennedy Western University,USA and was awarded Honorary Doctorate by The Yorker International University in Italy. His book titled "Quality Management in Construction Projects" being published by CRC Press (A Taylor & Francis Group Company), Florida, USA will be shortly available globally. "
